

TECHNICAL SPECIFICATION

HEARING PROTECTION

Sonis® Compact Ear Defenders

Dark Grey / Orange / Code: AEB030-0AY-000

DESCRIPTION

The Sonis® range has been stylishly designed with a traffic light colour code for easy identification. Materials have been chosen for both performance and comfort over extended periods of use, with careful design ensuring a small number of key components for easy maintenance.

Sonis®C ear defenders offer medium attenuation

FEATURES

Performance

The Sonis® range of ear defenders have been designed by the JSP R&D team. Working with a leading UK acoustic engineering research facility they have developed an ear defender range that peaks at an unbeaten 37 SNR.

Comfort

The over-moulded headband has a built-in comfort area with ventilation. The headband force and the cushion surface area work together to provide optimum cushion pressure and comfort.

Customisation

Sonis® cups can be coloured to meet a corporate identity. They can also be printed with a company logo for improved brand recognition and to discourage theft. MOQ's apply.

Adjustable Steel Arms

To facilitate even distribution of pressure the wearer can tilt and adjust the position of the earcup for optimum comfort and fit.

Hygienic

The headband is manufactured from TPE, making it easy to wipe clean. The sealing rings are easy to replace. Hygiene kits are available for each model.

Extra Visibility Option

The Sonis® range is available with extra visibility cups and a reflective headband for added low light protection.

SAFETY STANDARDS

EN 352-1

SPECIFICATIONS

	Mounting Headband
	SNR 32 dB
	Cup Material ABS
	Head Band Material TPE
	Adjustable Yes
	Hygiene Hygiene Kit
	BSI Kitemark Yes
	JSPCheck Yes
	Recyclable Yes
	Product Weight 234g

APPLICATIONS

Forestry & Landscaping
Hospitals, Healthcare & Pharmaceuticals
Welding
