

TECHNICAL SPECIFICATION

HEAD PROTECTION

Hardcap AeroLite® Short Peak

Navy / Code: AAF000-002-100

DESCRIPTION

The HardCap AeroLite® is the lightest full shell bump cap available on the market.

A direct evolution of the popular HardCap A1+™, the HardCap AeroLite® represents the forefront of innovation within the JSP® head protection range, providing complete protection in its category by meeting the requirements of EN 812.

Developed and refined by JSP's in-house Research and Development department, the HardCap AeroLite® weighs less than 135g without compromising on performance.

OPTIONS

Navy (AAF000-002-100)

Black (AAF000-001-100)

FEATURES

Full HDPE Shell

Underneath the sleek textile cover is a tough HDPE shell and a lightweight EPP impact liner, carefully designed to allow for flexibility and comfort for the wearer.

Reflective Areas

Large reflective areas on the side panels of the cover and reflective piping around the peak provide extra visibility and improved safety in low-light conditions.

Fit & Comfort

There is replaceable padding to provide extra comfort and a better fit. The comfort pad and the sweatband are moisture wicking to move sweat away from the skin.

Peak Options

Available in black or blue as standard and with either a 50mm or 25mm peak. The longer peak provides better shade and the shorter peak provides improved vision when looking upward.

Air Flow Technology

The cover has large open weave panels allowing the easy transfer of cool air. This substantially reduces heat build-up and discomfort for the wearer, especially when worn over long periods.

Anti Bacterial

The cover is removable and machine washable. The sweatband and padding are treated with Polygiene®, which reduces skin irritations, odours and wash cycles, and prolongs the lifetime of the fabrics.

Embroidery Logos

Get your logo embroidered onto the front or back of your Hardcap A1+, HardCap Aerolite® or HardCap Aerolite® 60°.

SAFETY STANDARDS

EN 812

SPECIFICATIONS

	Peak 5cm
	Impact Resistance 12 Joules x 4
	Maximum Temperature +50°C
	Minimum Temperature -40°C
	HDPE Shell Yes
	Recyclable Shell
	Slip Ratchet Slip
	Ventilation Yes
	Reflective Option Standard
	Anti-bacterial Coating Polygiene®
	BSI Kitemark Yes
	Machine Washable At Max 30°C
	Product Weight 127g
	Optional 2 point chinstrap (EN397 & EN 812 compliant) Optional

APPLICATIONS

Aerospace

Agricultural

- Arborist
- Chemical Spraying
- Distribution
- Farming
- Grain Stores
- Landscaping

Airports

- Aircraft Maintenance
- Ground Handling
- Ground Maintenance
- Parking
- Security

Construction and Infrastructure

Facilities Management

- Cleaning & Janitorial
- Elevator Maintenance & SVS
- Site Security / G4S

Food and Drink Manufacturing

Hospitals, Healthcare & Pharmaceuticals

Heat Transfer Logos

Heat transfer your logo onto either the front, back or side of your Hardcap A1+, HardCap aerolite or HardCap aerolite60°.

Law Enforcement

- Armed Forces
